Exhibition Overview: CeMAT ASIA 2020: Set Sail Again with 20 Years of Development

After four action-packed days, the industrial mega-show organized by Deutsche Messe AG, Hannover Milano Fairs Shanghai and the Chinese partners rounded off on 26 October at the Shanghai New International Expo Centre. Themed with “Smart Logistics”, CeMAT ASIA 2019 welcomed more than **800** notable enterprises from all over the world at a total display area of over **85,000** sqm. The number of visitors significantly increased this year, reaching **142,975** with the remarkable growth rate of **42.1%** compared with 2018, which consolidated the shows’ position as the leading driver for intelligent manufacturing.

In 2019, CeMAT ASIA celebrated its 20th anniversary. The two-decade development has ascended the show to the world’s second largest logistics equipment exhibition. CeMAT ASIA also made important contributions to the development of China’s and even the global logistics industry by extensively enhancing the direct communication between enterprises and customers, and inspiring innovation in the market competition.

“

**Dr. Jochen Koeckler,
Chairman of the Managing Board, Deutsche Messe AG**

The show's figures strongly prove that it is one of the most high-end industrial business platform in Asia. It is our honor that we are mostly satisfied by our participants. China is standing at a new starting point of the development of intelligent manufacturing, which provides more opportunities and markets for global manufactures. We believe that this show is the optimum place for global counterparts to better understand the industry in China and expand the business cooperation.

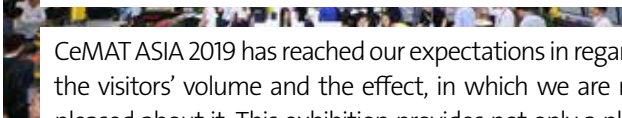

**Dr. Jens Hardenacke,
Global SVP and China MD of Dematic**

As an old friend of CeMAT ASIA, Dematic values every chance to participate in the exhibition. This year, for the first time, Dematic took part in CeMAT ASIA jointly with KION's Linde and Baoli. Together, we built the largest booth. During the exhibition, Dematic got access to a lot of quality customers, learnt their needs and suggestions first hand, and further deepened our service localization and technical innovation. It has proved a fruitful exhibition. We wish CeMAT ASIA will continue to be brilliant next year and become better and better!

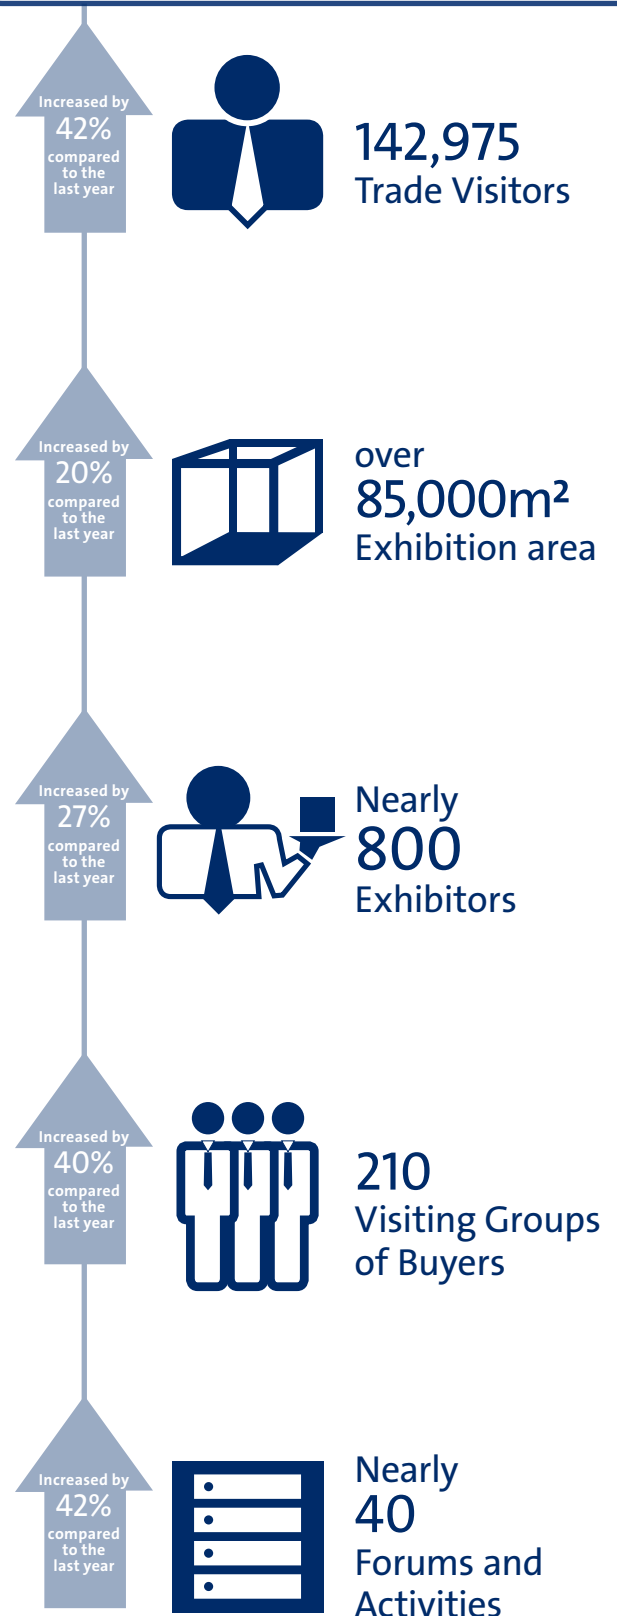

**Kaan Guclu,
Managing Director China of SSI SCHAEFER**

CeMAT ASIA 2019 has reached our expectations in regards to both the visitors' volume and the effect, in which we are more than pleased about it. This exhibition provides not only a platform for SCHAEFER to showcase the world's advanced logistics technology to Chinese users, but also a bridge to connect and communicate with each other among the industry. Wish CeMAT ASIA better and better!

Visitor Testimonials

Miss Zhang, H&M:

"Wonderful programs offered at the fair have brought us unusual cutting-edge information, which perfectly interpreted the slogan -- Technology drives the future! CeMAT ASIA brings technical innovations and breakthroughs to us and enables our services to better adapt to fast social development. We have harvested a lot at this year's fair. Thank you very much!"

Mr. Zhang, Shanghai M&G Stationery Inc.:

"We have witnessed that CeMAT ASIA grew into an industry gathering of professional and market value in domestic logistics industry, gathering today's logistics industry elites. CeMAT ASIA 2020 we'll be there or be square."

**Mr. Teng, China Pharmaceutical Group
Shanghai Medical Instrument Co., Ltd.:**

"We would like to thank CeMAT ASIA for giving us more opportunities to contact more industrial suppliers so that we could further reach long-term cooperation agreements and boost corporate development. We benefit a lot from this exhibition!"

Mr. Sun, Cargill China Grain & Oilseeds:

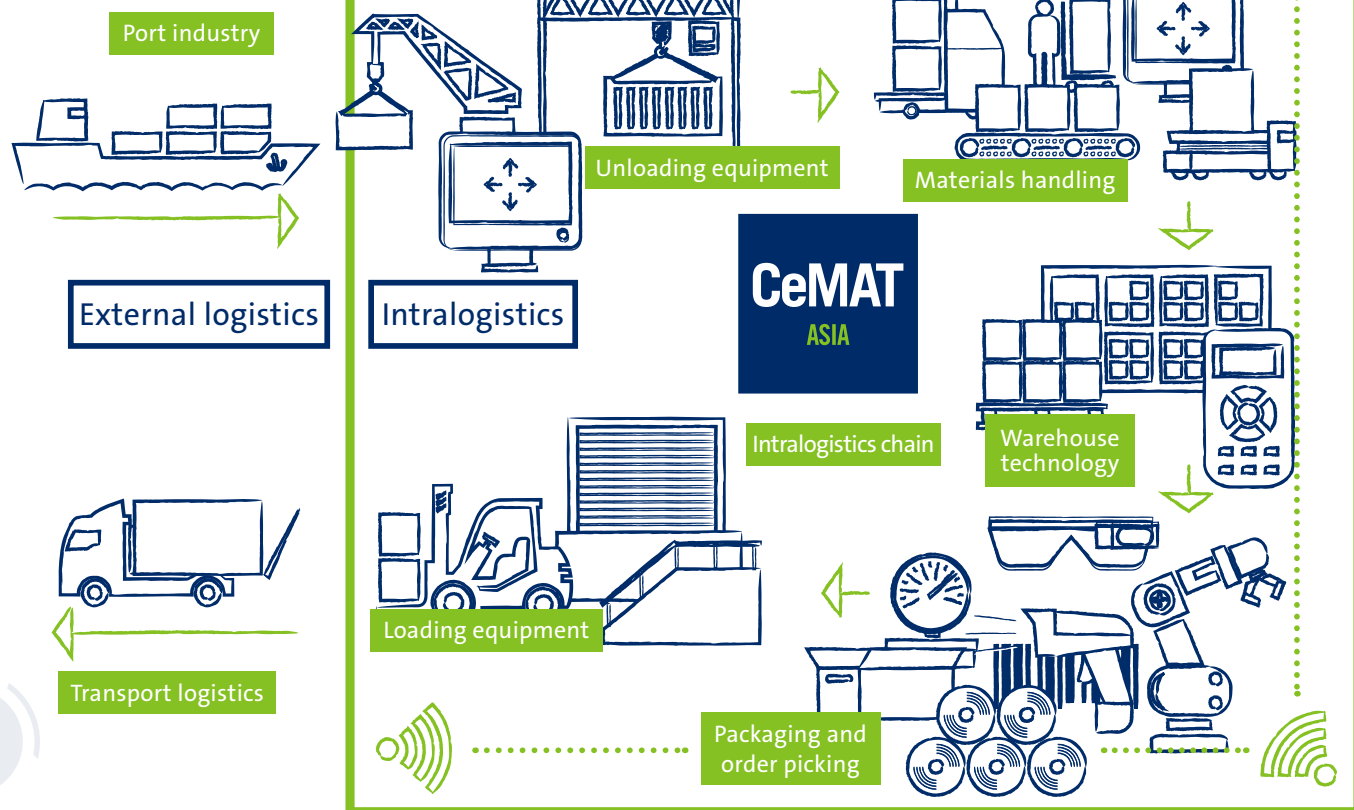

"CeMAT ASIA is a logistics equipment exhibition with considerable scale and influence in Asia. The whole exhibition runs through the concept of economy, high efficiency and low cost, enabling us to experience the power of science and technology, the new mode of systematic logistics management, and the mechanical equipment close to the actual logistics operation. The exhibition will lead the healthy, stable and efficient development of domestic logistics."

Mr. Bao, Hangzhou Lianhua Huashang Group Co., Ltd.:

"CeMAT ASIA provides the manufacturers and clients a platform for communication and cooperation through the exhibition. This year, we see more advanced technology and equipment and more perfect technology application scenarios of existing partners again. Combined with the actual application scenarios on-site, we can know some puzzles in the process of industry development and technology application, bringing technological innovations and breakthroughs to the company."

Synergies with
Concurrent Shows:

“ Logistics equipment is a basic, strategic and leading industry that supports the development of the national economy. As a national scientific and technological group in the field of mechanical engineering, the CMES has formed a partnership with Hannover Milano Fairs Shanghai Ltd., thus jointly dedicating their wisdoms and services to the development of CeMAT ASIA, and carrying historical missions. They co-organized the 1000-person conference of "Intelligent Logistics Development Forum", China-Japan logistics technology seminar and other high-end conferences, worked hand in hand all the way, integrated production with education, and composed a new chapter for the industry development in a pragmatic and innovative manner.

—— President of Chinese Mechanical Engineering Society (CMES),
Academician of the Chinese Academy of Engineering Li Peigen ”
